

PRODUCT INFORMATION

PowerFeed Controlled Release

POTS & PLANTERS for Indoor & Outdoor

PowerFeed Controlled Release Pots & Planters for Indoor & Outdoor with Troforte is a dynamic mix of nutrients, seaweed and microbes for all plants both indoors and outdoors.

A premium performer for gardeners who only want the best for their potted plants and trees. It delivers a high analysis nutrient and trace elements to boost lush, healthy foliage and stimulate flowering and fruiting.

Boosted with seaweed to help improve plant health, it stimulates strong root development and increases tolerance to low light, heat, drought, frost, pests and diseases.

Containing granules coated with beneficial microbes (Troforte technology), it helps to condition the potting mix soil to aid nutrient and moisture retention.

INSTRUCTIONS FOR USE

PowerFeed Controlled Release Pots & Planters is a granular fertiliser that releases a balanced nutrient mix to a plant when it needs it, so it's easy to use once every season.

Generally, for a 30cm pot use 60 grams (4 tablespoons) around the pot or follow the application table below for more specific rates.

Apply by mixing into the potting mix and water it in thoroughly after application to get those microbes working.

Do not apply too close to the main trunk or stem as it may burn.

PLANT TYPE	APPLICATION 1 tablespoon = 15 grams	APPLICATION FREQUENCY
Indoor and Outdoor - 15cm pot	1 tablespoon	Every season - 3 months
Indoor and Outdoor - 20cm pot	2 tablespoons	Every season - 3 months
Indoor and Outdoor - 25cm pot	3 tablespoons	Every season - 3 months
Indoor and Outdoor - 30cm pot	4 tablespoons	Every season - 3 months
Established Gardens	8 tablespoons per m ²	Every season - 3 months

TYPICAL ANALYSIS

W/V: Nitrogen (N) 15.0%. Phosphorus (P) 2.0%. Potassium (K) 10.0%

A probiotic for potted plants and soil health

Promotes healthy, lush growth, beautiful blooms and tasty produce

Boosts strong root growth and reduces the stresses of pot life

Improves the potting mix structure to help plants access moist and nutrients

USAGE TIPS

PowerFeed is the perfect partner for any potted plants indoors or outdoors applied whenever it is needed.

- ✓ For best results, remove any mulch or decorative soils, mix product into the potting mix, water it in and reapply the mulch or decorative soils.
- ✓ To save water, apply before or during rain, to get the microbes working. Take indoor plants outdoors to give them fresh water and air.
- ✓ Ideal to use at planting to aid plant establishment and root development.
- ✓ Apply when harvesting edible produce. Wash all edible produce.
- ✓ To avoid plant stress on hot days, apply early in the morning or late in the day when it is cooler.
