

PRODUCT INFORMATION

Seasol Plant + Soil Booster

Seasol Plant + Soil Booster is a natural pelletised plant and soil treatment. It is a rich source of natural ingredients including seaweed and compost to boost soil health and growth in all plants including natives.

INSTRUCTIONS FOR USE

Seasol Plant + Soil Booster contains natural composts, humic acids, organic matter, and seaweed. Easy to use; it can be spread by hand or with a spreader.

Seasol Plant + Soil Booster is a natural plant and soil treatment that can be used at any time throughout the year. Available in a 4kg or 10kg bag, it is safe to use on all soils and plants including natives. It is also ideal to use on lawns. However, for a specific lawn treatment, use **Seasol Lawn + Soil Booster**.

DIRECTIONS FOR USE

Apply **Seasol Plant + Soil Booster** every 6 to 8 weeks or as needed. Use on established gardens and pots or when planting or transplanting plants.

Generally, spread 100 grams per square metre of **Seasol Plant + Soil Booster** to the soil or use the application table for more specific rates and applications. Water it in thoroughly after application.

PLANT/APPLICATION TYPE	APPLICATION	FREQUENCY
Indoor and Outdoor - 15cm pot	40g	Every 6-8 weeks
Indoor and Outdoor - 20cm pot	50g	Every 6-8 weeks
Indoor and Outdoor - 25cm pot	60g	Every 6-8 weeks
Indoor and Outdoor - 30cm pot	70g	Every 6-8 weeks
Transplanting & Planting	50g	Apply to the base and backfill soil
Established Garden	100g / m ²	Every 6-8 weeks
New Lawns	100g / m ²	Apply to the soil prior to laying lawn or turf or sowing seed
Established Lawns	100g / m ²	Every 6-8 weeks

Seasol Plant + Soil Booster is available from Bunnings in a 4kg and 10kg bag to meet every gardener's needs

A rich source of natural ingredients including seaweed and compost to boost soil health and plant growth

Boosted with natural composts, humic acids and organic matter, it increases worm and microbial activity

Added seaweed stimulates root development and reduces plant stress from heat, drought and foot traffic

Safe on all plants including natives, it enhances flowering and fruiting and soil moisture and nutrient retention

USAGE TIPS

Seasol Plant + Soil Booster is the perfect partner for any garden project applied throughout the year.

- ✓ Apply **Seasol Plant + Soil Booster** during the growing season to rejuvenate the soil and promote healthy plant growth, flowering and fruiting.
- ✓ Reapply during winter to revitalise tired soils ready to help plants burst into spring growth.
- ✓ Apply when planting to the base of the hole and throughout the backfill soil to aid plant establishment and a strong root system.
- ✓ Apply in the cool of the day, early morning or late in the evening. Water it in thoroughly to ensure water is going down to the plant's roots.
- ✓ If water is pooling on top or running off the soil. Apply **Seasol Super Soil Wetter & Conditioner** to improve soil moisture content.
